

Note: Tariffs and price increases.

These are tough times with tariffs looming in the global market place.

We at BASO Gas Products strive through continuous improvement programs to minimize price increases to our customers. As new tariffs are imposed on us from our suppliers this will have an immediate impact on the products we provide you. Our customer service group will be providing you notification when orders are placed as to the products effected at that time. BASO Gas Products will need to pass these tariff cost increases on as we receive them.

We thank you from all of us here at BASO Gas Products for your business and we look forward to servicing you in the future.
